ZOOM Helper App Design Project

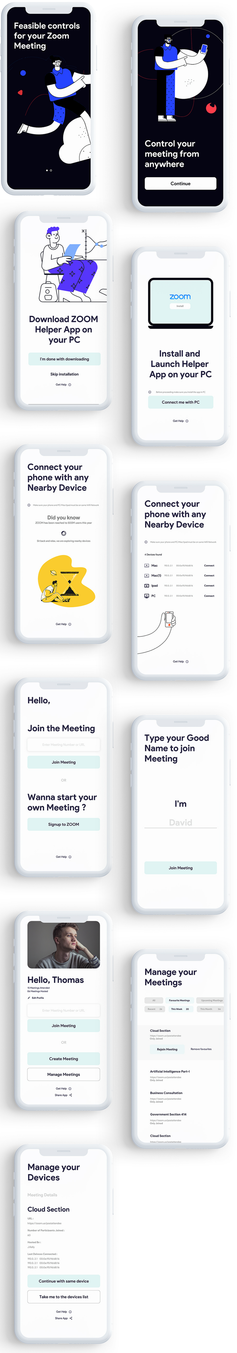
We are Development and Design agency who are responsible for creating high-end interacting Products. In this Project, we made a UI research to fulfil client requirements and making this app feasible for all customers.

ZOOM – Helper App

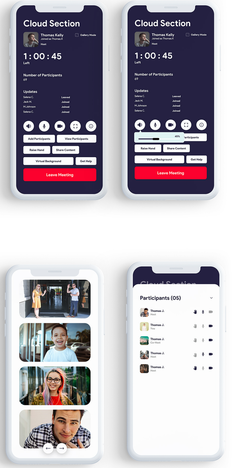
–

Art Direction, UX Researcher : Muhammad Sahbaan Alam
Agency : Vector Inc.
Client : ZOOM

App UI



Meeting View

In this sections, we arrange each type of button on same row like Basic Controls are on same row, add and view participants are on the same row.


When the user long press the speaker button, the slider will be appear as shown in below Image-2
